To View Student Access Log

|	
Select **People** in the left hand navigation (This is likely greyed out).	
From the list of students, select the student you would like to check the interaction on.	
On students page select **Access Report for** … in the top right corner.	
The Access Report contains how many time the student viewed each assignment as well as participated in the assignment.	

Alternate Way to get a snap shot of the information- Analytics

On course home page select View Course Analytics on right	
Scroll to the bottom to view students. Select student for more details.	
Mouse over different areas to get details on specific assignments or dates.
